

My complaint is on your decision to not bar Sinclair from running the critical story on John Kerry,, by Sinclair, right before elections, stating that you have no authority. But, you prevented commercials on Michael Moore's film, that advertised his film. That seems to be discrimination and bias decision making. Also, this will be run without commercials. This is right-out blatant, free campaigning for Mr. Bush, by Sinclair, and all of his stations. If this is to be allowed, then this commission needs to strip the Sinclair stations of the ability of news reporting, and should not be able to say that they are fair and balanced news. And they should be required to run Farenheight 9/11, also without commercials, on all of their stations.
